

motorcycle battery 512 13

YB12AL-A 12V 12Ah; 165 A (EN)

The Q-Batteries 12V motorcycle batteries provide reliable performance and extended life for many types of motorcycles and other small vehicles. They are easy to install, have a robust construction and are ready for any weather condition.

The YB series are lead-acid batteries with very good cold-start performance. The batteries are pre-charged and are sold with a separate acid pack. When upright structure tilted and leakproof, these batteries provide excellent starting power in extreme weather conditions.

Application:

motorcycles, lawn mowers, jet skies

Features:

- maintenance free
- durable
- high capacity

Specification:

Voltage:	12V
Capacity:	12 Ah
CCA (Cold Cranking Amps):	165 A (EN)
Weight:	4,4 kg +/- 3%
Terminal:	Y5
Circuit:	0 (positive pole right)
Hold down:	B00

Dimensions:

134 mm Length x 81 mm Width x 160 mm Height

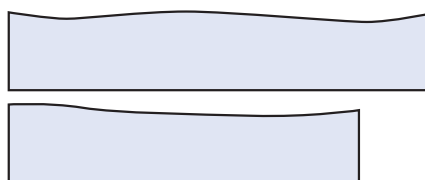

Liability is excluded for all printing errors and omissions.

Subject to errors and prior sale. Illustration similar.
