

AGM traction batteries

The Q-Batteries traction batteries are ideal for demanding applications in cleaning machines, lifting platforms, industrial trucks and other industrial areas. The main advantages are the higher capacity and faster charging compared to gel batteries of comparable types.

Areas of application:

- Cleaning machines
- Golf carts
- Wheelchairs
- Driverless transport systems
- Working and lifting platforms
- Electric tugs
- Marine / Caravan

Features:

- maintenance-free according to DIN
- high Cycle stability
- robust construction
- vibration-proof
- long lifetime
- extremely thick grid plates for high performance
